

THE NFB IS HIRING!

FRONT-END DEVELOPER

Are you an experienced and versatile front-end developer who's passionate about technology and design? Are you interested in contributing beyond writing code, and participating in UX/UI? Are you a true team player with strong social and soft skills? Then this is the job for you. As a Front-End Developer at the National Film Board of Canada (NFB), you'll ensure that the front-end UX is slick and optimized for speed, scalability, and usability.

Why join the NFB? It is the only institution of its kind in the world that produces and distributes auteur animation, documentaries in every form, and interactive work, for both Canadian and international audiences. Our primary means of sharing this creative wealth is the NFB.ca website and the *NFB Films* app. And to do this, we need a team that truly reflects the richness and diversity of Canada. If you'd like to be a part of this team—and part of the NFB's incredible legacy—we'd love to hear from you.

YOUR OPPORTUNITY:

- Join the NFB Platforms team as a Front-End Developer in a permanent, full-time position. You'll earn a salary in the range of \$72,687 to \$92,027, plus enjoy a variety of employee benefits—including medical and dental coverage, a government pension plan, and a competitive paid-leave schedule.
- You will be able to take full advantage of the ONF's Flexible Work Arrangements offer such as teleworking and flexible schedule.
- Work in the brand-new NFB office space in downtown Montreal, located in the dynamic and arts-centric Quartier des Spectacles, surrounded inside and outside by creators, producers and media professionals.
- Immerse yourself in an exciting mandate: combine the art of design with the art of programming in the creation of NFB corporate digital products, including websites, apps and more (i.e., *NFB Films* app, NFB.ca).
- Access to training budgets to keep up with the latest trends related to upcoming projects, in an environment that encourages and supports continuous learning.

ABOUT YOU:

You're an open-minded, highly motivated individual with a passion for new technology and a keen sense of how users interact with web and mobile tech. You're a team player who communicates well and you don't take yourself too seriously, but you know when it's time to hunker down and get to it! You like diversity, you're a future-oriented programmer and, most importantly, you like a challenge. You're a pro at juggling multiple projects simultaneously. You take initiative, work effectively solo and demonstrate great judgement. You're able to stay flexible, cope with pressure and communicate well at all times. Must be willing to tolerate regular cat pictures and videos being shared on Slack.

Also, you possess:

- A university degree in a related subject and at least three (3) years' experience in front-end development, or equivalent combination of work and educational experience;
- Excellent knowledge in developing responsive websites, applications and social media products;
- Good knowledge of Photoshop, Illustrator;

- In-depth understanding of core web technologies (HTTP, HTML, CSS, JavaScript, jQuery, AJAX, JSON, XML, etc.) and principles;
- Experience working in 2 or more client-side JavaScript frameworks, such as React.js, React Native, Handlebars.js, Node.js (Angular.js, Backbone.js, and three.js are nice to have);
- Experience in WordPress or Drupal front-end development and in managing WordPress websites, plug-ins and security updates;
- Familiar with a modern development environment using tools like Git, Grunt, Gulp, Webpack;
- Familiarity with RESTful APIs to connect websites and apps to back-end services;
- Good knowledge of the principles underlying SEO, analytics, social media networks;
- Ability to communicate orally and in writing in both official languages (English and French).

If you are interested in this position and have the qualifications above, we invite you to apply in writing, including a copy of your **resumé, to rh-hr@nfb.ca, BY JUNE 16, 2020, citing competition number SN-00021459. For more information about this opportunity, please visit bit.ly/NFBJobs.**

The NFB is committed to building a skilled, diverse workforce that's reflective of Canadian society. It promotes initiatives such as employment equity and encourages candidates to voluntarily indicate in their cover letter if they are a woman, a member of a First Nation, Inuk, Métis, a person with a disability or a member of a visible-minority group.

The NFB is also committed to developing inclusive, barrier-free selection processes and work environments. Feel free to advise us of any accommodation needs.

Please note that only applicants selected for an interview will be contacted.
